VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS

Please amend the claims as follows:

3. (Amended) A system as claimed in ~~any one of claims 1 to~~
3 claim 1, wherein the network controller is operable to modify
the topology to reduce the number of cells in an area to which
the same content is being delivered.

4. (Amended) A system as claimed in ~~any one of claims 1 to~~
4 claim 1, wherein the network controller is operable to modify
the topology to increase the number of cells in an area to which
different content is being delivered.

5. (Amended) A system as claimed in ~~any one of claims 1 to~~
4 claim 1, including a further transmitter delivering content to
an area overlying at least the network topology determined by the
controller.

7. (Amended) A system as claimed in ~~any one of claims 1 to~~
6 claim 1, wherein at least two transmitters comprise said
plurality of transmitters.

8. (Amended) A system as claimed in ~~any one of claims 1 to~~

05893590-062901

7 claim 1 wherein said transmitter characteristics are varied in respect of one or more of the following, namely frequency, antenna directivity or transmission power.

11. (Amended) A method as claimed in claim 9 ~~or claim 10~~, wherein the transmitter characteristics are varied such that the cellular density of the topology is increased in an area where substantially different content is being delivered to terminals.

12. (Amended) A computer program comprising executable code for execution when loaded on a computer, wherein the computer is operable in accordance with said code to carry out the method according to ~~any one of claims 9 to 11~~ claim 9.

19. (Amended) A computer program comprising executable code for execution when loaded on a computer, wherein the computer is operable in accordance with said code to carry out the method according to claim 17 ~~any one of claims 17 to 18~~.
